

About our charity

The Northern Devon Healthcare NHS Trust Charitable Fund (registered charity number 051463) raises money for equipment and care above and beyond that provided by the National Health Service.

Donations to this charitable fund are used to support wards and services across the Trust. Since it was established in 1995, it has bought equipment ranging from specialist beds to bladder and eye scanners. Our current and largest major appeal is the **North Devon Chemotherapy Appeal** which was set up to raise funds for a new purpose built chemotherapy and day treatment unit at the North Devon District Hospital.

When people give money to the charity they can either specify the ward or service they want their donation to go towards, or the donation can go to the general fund. Money in the general fund is used for equipment or projects that have been identified as a priority by staff or patients – such as the current **Chemotherapy Appeal**.

Thanks to the generosity and support of the local community, the charitable fund has made a huge difference to the experience of thousands of patients.
